

## FROM SMALL STEPS COMES GREAT PROGRESS

Hi friend,

This September, I'm joining Canadians from coast to coast in support of the more than 100,000 members of our community living with Parkinson's, as well as their care partners and family members – and I need your support.

With approx. **30 Canadians diagnosed with Parkinson's each day**, SuperWalk raises funds to support Parkinson Canada's network of innovative researchers, services and programs and important advocacy work.

I'm proud to participate in SuperWalk, an event that emphasizes the strength and spirit of the Canadian Parkinson's Community. By donating and supporting me, **you're supporting Parkinson Canada's quest to improve the lives of people living with Parkinson's and their care partners**, and to ultimately find a cure for the disease affecting more than 100,000 Canadians.

Together, we have an immeasurable impact on the research being done, the services being offered, and the people being helped every day. **Please support me in this year's SuperWalk.**

Thank you!
